LOXDON, Sept. 12.—The Samedard thinks the loss of Cuba and perhaps Porto Rice would be the certain result of a war with the United States. Here the mischief for Spain would send siter some months of combat, for ahe must agree to peace, but this mischief would bring with it me corresponding good to the United States. It is not probable that the American Government will interfere further in Cuban affairs.

The Jackson (Miss.) special of the Clincin nati Commercial has discovered another conspiracy to reliase Col. Ed. Tenger. He says of it: "Strange to say, agents in the attempt are from the ranks of the United States army, a sengeant, two corporals and seven privates. A sergeant, two corporats and seven privates are under arrest, on the charge of conspiring with out-side parties to effect the prisoner's escape. The wree of two of the soldiers have been used as 'go-betweens," and it is asserted, on what at present seems reliable authority, that Mrs. Yerger has been cognizant of the fact. There is no doubt that out-site parties have been acting in concert with the grards, and to these would have been intrusted the work of spiriting the prisoner away, in the event of his escape, from the confines of the comp. The soldier, once in the Confederate army, who, some weeks ago, discovered in Yerger's possession a key by which he could unfasten his manacles, but who did not report the circumstance to his superior officers until he had been on guard in Ferger's room a second time, is one of the conspirators." If this dreatful conspiracy should turn out in the end to be a more "mare's next," nobody need to surprised. inder arrest, on the charge of co
